SBELIH

Kai Stürmann, MD
Chair, ELI Leadership
Coordinating Council

2021

As we head into 2022, we cannot help but stop and reflect on all that has happened over the past two years. In July of 2019, we joined with Stony Brook Medicine, expanding our small rural hospital to a healthcare system that stretches across the entire island. Shortly after, we were faced with a global pandemic that halted our lives. Now, we are looking forward to the future and another “new normal,” at Stony Brook Eastern Long Island Hospital.

At the start of the pandemic, we conquered PPE and COVID-19 testing. This year, our clinical and non-clinical support team members, leaders and physicians, continued to courageously meet the needs of our community throughout the COVID-19 pandemic by joining with Stony Brook University Hospital to administer a vaccine rollout in accordance with state and federal

guidelines. The arrival of vaccines was great news in the fight against COVID-19. The vaccines are our best course of action in protecting ourselves, our patients, friends, family, and loved ones. The success of vaccination is dependent upon the majority of us receiving it. With that, a “Vax Squad” was established. This enabled SBELIH and SBUH to deliver over 16,000 vaccinations locally, with 7,500 administered here at SBELIH.

In addition to our vaccine rollout, in July of 2021, we kicked off our first ever Surgical Residency Program. Led by Dr. Melany Hughes, the program will welcome a Stony Brook Medical School Resident to our hospital every month to assist in her service. Our Surgical Residency Program joins the already active Psychiatry Residency Program and Emergency Department Residency.

The dedicated staff at Stony Brook Eastern Long Island Hospital continues to work tirelessly to meet the needs of the North Fork and Shelter Island, and as our connection with Stony Brook University Hospital and Stony Brook Southampton Hospital grows, we are able to support our community in more ways than ever.

The health of our community is vital, as are your continued contributions to Stony Brook Eastern Long Island Hospital. We are here for you, as you have been here for us.

As we enter a new year at Stony Brook Eastern Long Island Hospital, we have taken the time to reflect on the past kindness of our donors. Your gifts are what keep our hospital running. Thank you to each and every one of you. Your gracious generosity is never overlooked and is greatly appreciated.

MESSAGE FROM THE AUXILIARY

Helene V. Fall
President, ELIH Auxiliary

The Eastern Long Island Hospital Auxiliary was formed in 1905 and has raised close to \$11 Million for our Hospital since its inception.

2020 was a challenging year for us all. The Auxiliary remained mission focused and continued to provide day-to-day support for the Hospital staff through participation in the meal train program among other activities and, direct community support through our wonderful award winning Opportunity Shop. During 2020, the ELIH Auxiliary raised \$320,000 for Stony Brook Eastern Long Island Hospital.

I am beyond proud to be a member of the outstanding group of men and women who make up our ELIH Auxiliary. I wish to take this opportunity to thank my fellow Auxilians for their hard work and dedication this past year, and especially, our ELIH Auxiliary Board of Directors, as we navigated through COVID and continued to support our Hospital.

MESSAGE FROM THE ELIH FOUNDATION

Alison M. Byers, PsyD
Vice Chairman

Paul J. Romanelli,
Chairman

Eileen Brennan Oakley
Vice Chairman

It is our honor and privilege to witness the impact that your generosity is having on healthcare in our community. The Foundation has a long history of working in collaboration with individuals, businesses, and community organizations to improve the quality of the care provided at our hospital.

Healthcare as a discipline is constantly changing. As technology evolves and advances forward, so does Stony Brook Eastern Long Island Hospital's opportunity to care for patients. Being part of an academic medical system, our goal is to continually elevate the services and infrastructure we deliver and to provide the best possible care for those who rely on us with their healthcare needs. It's a challenging task, but one we strive to meet each and every day with vigor and confidence.

At the Foundation, it is our responsibility to raise funds to help the hospital hire top clinicians and staff, purchase modern technology, provide needed services and maintain its buildings and infrastructure when the need arises. If we do our job, then the trust you place in us is well spent. For generations, with the Foundation's dedicated assistance, the hospital has been able to provide the North Fork and Shelter Island communities with outstanding care in a loving, compassionate and family-centered environment.

Where healthcare is concerned, the need is great and the resources often limited. However, with assistance from our philanthropic neighbors we've been able to succeed for more than a century. Thank you for allowing us to share with you our vision for providing the communities we serve with the finest care possible.

Coming out of a year of COVID-compliant events, we were able to step into the next normal and come together at in-person events to benefit our community hospital. For those that did not wish to attend events in person, we held a virtual 5K Walk/Run and continued the Gala at Home. Our safely attended events included a new gala, "Sailing into Summer" honoring Sheri Winter Parker at the Peconic Bay Yacht Club. Our 29th Annual Golf Classic at Gardiner's Bay Country Club sold out in record time. Lastly, our 3rd Annual Fishing Tournament has solidified its place in the Foundation yearly events, with a successful tournament and an incredible Seafood Bash dinner.

While large donations make a great impact in one shot, it is the smaller donations from this community that continue to make a large impact on Stony Brook Eastern Long Island Hospital.

We are dedicated to the continued growth and development of the infrastructure and services at Stony Brook Eastern Long Island Hospital. Our growth and development is only made possible by your continued support and that of this generous community in which we live and work.

REPORT TO THE COMMUNITY

Stony Brook Eastern Long Island Hospital

Thomas E. Murray, Jr., Chairman, ELIH Association;
Paul J. Connor III, Chief Administrative Officer, SBELIH;
Kai Stürmann, MD, Chair, ELI Leadership Coordinating Council

About Stony Brook Eastern Long Island Hospital

With 70 beds, Stony Brook Eastern Long Island Hospital (SBELIH) is an acute care community hospital committed to delivering excellence in patient care and meeting the current and emerging health needs of the North Fork and Shelter Island. In 2019, Eastern Long Island Hospital joined with Stony Brook Medicine to preserve the mission of our founders to better serve our community. A campus of Stony Brook University Hospital, SBELIH provides regional behavioral health programs serving the greater Suffolk County area.

At SBELIH, inpatients are under the care of world-renowned hospitalists, physicians who specialize in inpatient medicine and taking care of hospitalized patients in place of a primary care provider. Centers of Excellence include Medical-Surgical, Advanced Ambulatory Care, Behavioral Health, Emergency, Geriatric, Diagnostic Services, Physical Therapy and Gastrointestinal Services. SBELIH is fully accredited by the Joint Commission and has been awarded the Gold Seal of Approval.

Mission

Stony Brook Eastern Long Island Hospital delivers world-class, compassionate care to our patients, advances our understanding of the origins of human health and disease, and educates the healthcare professionals and biomedical investigators of the future, so they can bring the fruits of scientific discovery to our patients.

Values

Integrity – We are honest and ethical in all of our interactions.

Compassion – We provide empathic care with attentive listening and affirmation.

Accountability – We hold ourselves accountable to our community, to our organization and to each other for our performance and behaviors.

Respect – We foster an environment of mutual respect and trust, embracing diversity in people and thinking.

Excellence – We set the highest standards for safety, clinical outcomes and service.

2022 CALENDAR

EMERGENCY MEDICINE

Whether you need urgent emergency care or lifesaving medicine, the team at Stony Brook Eastern Long Island Hospital is here for you. For most patients, our Emergency Department has one of the shortest wait times in Suffolk County. Specialty-trained staff are available 365 days of the year to treat a full spectrum of patient experiences — from minor cuts to traumatic injuries, and illnesses from the common cold to heart and stroke incidents. Every person who comes to the ED is given appropriate treatment regardless of their ability to pay. Our credentialed team of physicians, nurses, and staff exceed New York State standards and are committed to treating your emergency. All SBELIH ED nurses are Trauma Nursing Core Course (TNCC) certified.

- Accessible by land, sea, and air with heliport and emergency dock
- ALL Residency-trained Board Certified Emergency Medicine physicians
- Advanced cardiac life support certified nurses
- Credentialed team, exceeding New York State standards
- Arctic Sun Temperature Management System

Chest pain? Don't wait, call 9-1-1

Let the expert emergency team at SBELIH evaluate you, rather than risk losing valuable treatment time. Stony Brook Medicine is helping to improve emergency care on the North Fork, with two first responder "fly cars" staffed by NYS trained and certified paramedics, for the highest possible level of pre-hospital emergency care — 24 hours a day, 7 days a week.

SHERI WINTER PARKER

“ It’s really hard to put into words what Stony Brook Eastern Long Island Hospital means to me and our family. When COVID-19 hit the North Fork, they were at ground zero. And to put it plainly, the talent in this hospital saved my life. My family and I will forever be indebted to the extraordinary doctors, the staff, and to each and every person that helps this hospital run daily.

As a member of this community, I am incredibly proud that we have a hospital of this caliber on the North Fork. ”

EAST END SPINE AND SPORTS MEDICINE

East End Spine and Sports Medicine is a physiatry and orthopaedic practice providing comprehensive care in Greenport and Hampton Bays. In collaboration with Stony Brook Medicine, we have access to easy referrals to high-quality specialists and seamless collaboration on our integrated electronic patient record.

We believe in the concept of precision medicine, which means the right treatment, for the right patient, at the right time. Dr. Stanton's approach is to be aggressive with diagnosis and conservative with treatment. Our goal is to return patients to their highest level of performance at work, sports or recreational exercise. We are pleased to be part of the Center for Musculoskeletal Health on the East End, serving all of your orthopaedic needs.

East End Spine and Sports Medicine: A Location of Stony Brook Medicine, Greenport, Hampton Bays

Ashton Stanton, MD
Clinical Assistant Professor
Fellowship, Spine and Sports Medicine
Greenport and Hampton Bays: 631-430-2090

EMMA OAKLEY

“ I’ve been dealing with back and leg pain for several years now. I truly appreciated how Dr. Stanton took the time to go over all my images and performed a thorough exam to make sure we came up with a solid plan to get me back to feeling my best! ”

MEDICAL-SURGICAL SERVICES

Our Medical-Surgical and Intensive Care Units provide streamlined patient care in a beautifully designed contemporary environment. The team of healthcare professionals includes certified operating room nurses, certified registered nurse anesthetists, certified operating room technicians, and board certified specialists in anesthesiology, gastroenterology, general surgery, neurosurgery, ophthalmology, orthopaedics, plastic and reconstructive surgery, and urology.

Our award-winning professional nursing staff closely monitors patients every step of the way, from admission to discharge. Stony Brook Eastern Long Island Hospital nurses and physicians take great pride in delivering an extra measure of "care" to our patients. Some of the most common surgical procedures performed at SBELIH include minimally invasive procedures, appendectomy, gallbladder procedures, hernia, colon resection, other gastrointestinal procedures, wound care, venous ulcers, complex wounds, and wound VAC.

General Surgery

With state-of-the-art laparoscopic instrumentation, minimally invasive surgery can be performed with maximum results. Enhanced ancillary services including pathology, histology, cytology, microbiology and pre-surgical diagnostics support positive outcomes. SBELIH was the first hospital on Long Island to acquire and operate with the Olympus 4K Ultra High Definition Surgical Camera System, a cutting-edge piece of surgical equipment.

Stony Brook Medicine

Melany C. Hughes, MD, MPH

ELILCC Member at Large, Leadership Coordinating Council

Greenport: 631-477-5386

Stony Brook Medicine Meeting House Lane Medical Practice

George D. Keckeisen, MD

Sang I. Pak, MD

Greenport: 631-477-5386

Advanced Ambulatory Surgical Services: 631-477-5350

At Stony Brook Eastern Long Island Hospital

Due to less invasive procedures and quicker healing times, approximately 85% of today's surgeries are performed in the Advanced Ambulatory Care Center. Ambulatory surgery patients are educated prior to their scheduled surgery to ensure that they fully understand the procedure, making sure both patient and family have all their questions answered to their satisfaction.

COLIN RATSEY

“As a local business owner, I know the combination of state-of-the-art technology and the personal touch is what local residents want and deserve. SBELIH more than delivers that to our community.

As a patient, I learned first-hand that no one combines small-town friendliness and modern medical care better than SBELIH. We are beyond fortunate to have them.

SBELIH has it all covered. A skilled medical staff, state-of-the-art technology, convenient location, all with a caring, hometown approach.

You can't beat that! ”

- Treadmills, steppers, elliptical machines
- Stationary/recumbent bikes
- Upper body cycle
- Free weight room
- Biodex and Nautilus weight equipment
- Satellite TV

Stony Brook Eastern Long Island Hospital Physical Therapy

Greenport: 631-477-5157

DONALD BRENNAN

“After shattering my shoulder, I was brought to SBELIH where the injury was stabilized and subsequently reconstructed a few weeks later, in Florida.

Complicated by COVID protocols, it wasn't until I returned to the North Fork and was fortunately taken under the care of SBELIH Physical Therapy that any real progress was made, and extensive physical therapy restored function to my “bionic” shoulder. The therapy team, led by Lori Dibble, took ownership of the challenge of giving me full range of motion and strength. They far exceeded both my and my doctor's expectations. The team truly cared and the great outcome is testimony to their skill and patient-centric approach to rehabilitation therapy... for which I am the very grateful beneficiary.”

INPATIENT BEHAVIORAL HEALTH SERVICES

Stony Brook Eastern Long Island Hospital is a premier provider of behavioral healthcare and substance use treatment for Eastern Long Island and Suffolk County. Stony Brook Eastern Long Island Hospital is Suffolk County's only facility that offers integrated care that encompasses Detoxification, Rehabilitation, and Psychiatric Services along with medical care for other problems such as diabetes and liver disease. With a proven track record of success on the North Fork, we serve adults 18 years of age and over.

Inpatient Behavioral Health Services provide treatment for mental health and substance use disorders from a medical and psycho-therapeutic approach. Treatment is provided by an interdisciplinary team of physicians, nurses, social workers, recreation therapists and credentialed alcohol and substance abuse counselors. Through individual and group therapy, education, medication management, and comprehensive discharge planning, SBELIH provides a nurturing environment allowing patients to stabilize, develop insights and transition back into the community.

NORTH FORK ORTHOPAEDIC SURGERY AND SPORTS MEDICINE

North Fork Orthopaedic and Sports Medicine is a comprehensive orthopaedic practice treating all aspects of bone, joint, muscle injuries and disease. In collaboration with Stony Brook Medicine, we have access to easy referrals to high-quality specialists, and seamless collaboration through our integrated electronic patient record.

Whether you are an active athlete or someone experiencing chronic joint pain due to osteoarthritis, our orthopaedic specialists are here to help you improve your physical condition. Our goal is to decrease your pain and improve your overall range of motion. Education, strengthening exercises, reduction of stress on joints, anti-inflammatory medications and surgery are all tools available to help improve your condition.

We are pleased to be part of the Center for Musculoskeletal Health on the East End, serving all of your orthopaedic needs.

North Fork Orthopaedic Surgery and Sports Medicine: A Location of Stony Brook Medicine

PATRICK HYLAND

“ As I stand beside my family truck, I think of what's most important to me. Family, no doubt is most important. Not only my biological family who I love more than life itself but also my extended family which includes North Fork orthopaedics. The folks at North Fork Orthopaedics have seen me through some pretty difficult times over the last 11 years. Each and everyone is so special to me. Thank you and God bless you all for all you do. Godspeed Dr. Carter, you will forever be in my heart. ”

CENTER FOR MUSCULOSKELETAL HEALTH

Make no bones about it — Stony Brook Orthopaedic Associates is bringing nationally acclaimed muscle, bone and joint care to the East End of Long Island.

Stony Brook's Center for Musculoskeletal Health offers nationally acclaimed muscle, bone and joint care to the East End of Long Island. The center is part of Stony Brook Orthopaedic Associates, which also includes Stony Brook Medicine's state-of-the-art Imaging Centers, providing complete access to a comprehensive range of specialists for every orthopaedic need.

Areas of Specialty

Our providers are educated and trained at some of the nation's best medical schools and together, they are focused on providing excellent care and research for the prevention, diagnosis and treatment of all musculoskeletal injuries and disorders in adults and children, in the following areas:

- Hand Surgery
- Joint Replacement
- Neuromusculoskeletal Medicine
- Pain Management
- Pediatric Orthopaedics
- Podiatry
- Rheumatology
- Sports Medicine

A key part of the Center for Musculoskeletal Health is our collaboration with the expert radiologists at Stony Brook Medicine's Advanced Imaging Centers. Our centers are staffed by the same specialty-trained radiologists who work at Stony Brook University Hospital, along with highly-skilled and experienced technologists. Services include X-rays, sonography, ultrasounds, CT and PET/CT scans, CT/CAT scans, MRI, breast imaging and DEXA-bone density. Stony Brook Advanced Imaging Centers provide comfort and convenience, with walk-in appointments available from Commack to Riverhead. For more information, visit imaging.stonybrookmedicine.edu.

To learn more or to make an appointment, call 631-638-BONE (2663).

ANDY BINKOWSKI

“ When I learned I was going to need to have surgery on my left rotary cuff, I met with a local surgeon Kirsten Hopkins. She informed me that I could opt to have my surgery at SBELIH. I immediately thought – there's no better place. I'll be close to home and living in the local area, I know many of the staff at the hospital. I felt comfortable and at ease during my procedure. Since my surgery everything has gone well and i look forward to a full recovery. ”

WILLIAM PARK

“Easter Sunday 2013, I passed out in the street at St. Agnus Church. Greenport EMS brought me to SBELIH where they did an amazing job getting me back on my feet. I was referred to East End Cardiology and have been with the practice ever since. East End Cardiology has done a wonderful job over the past 8 years. I don't know what more to say, I am very grateful and satisfied with the care I have gotten.”

QUANNACUT OUTPATIENT SERVICES

Quannacut Outpatient Services is a 14,000-square foot state-of-the-art behavioral health facility at the forefront of modern treatment for substance use disorders across Eastern Long Island. At “Quannacut” (the Native American word for “hope” or “rainbow”) addiction/chemical dependency is approached as a treatable disease.

Quannacut Outpatient addresses patients' immediate and long-term substance use issues, as well as the impact on their support system, family members and significant others. Centrally located in Riverhead, the facility provides highly individualized programs for patients with diverse needs across a wide variety of treatment disciplines so that patients can receive all outpatient care in one location.

DIAGNOSTIC SERVICES

Stony Brook Eastern Long Island Hospital is home to advanced diagnostic imaging services, with a new Siemens MAGNETOM Altea 1.5T with BioMatris Magnetic Resonance Imaging (MRI) system, state-of-the-art bone mineral densitometry screening system. SBELIH is also home to 3D tomosynthesis mammography to provide earlier cancer detection, less false positives, and fewer follow up tests. Our tomosynthesis system is also equipped with a "soft touch" pad for more comfortable mammograms.

The American Cancer Society recommends routine mammography exams for women ages 45 to 54 every year. If you are 65 or older, or if you're younger than 65 but have one or more of the risk factors associated with osteoporosis, you should have a bone density test. If you have a family history of breast cancer or osteoporosis, talk to your physician about when to begin mammography and bone density screenings.

Radiology Services:

- Bone Mineral Densitometry (BMD)
- 3D Tomosynthesis Mammography
- Ultrasound/Sonography
- 128-Slice Computerized Axial Tomography (CT) Scanner
- 1.5 Tesla Magnetic Resonance Imaging (MRI)
- MRI with Sedation
- Nuclear Medicine
- Digital Radiography (X-ray)

Laboratory:

- General Chemistry Hematology:
 - Electrolyte levels
 - Glucose levels
 - Liver enzymes
 - Cardiac markers
 - Thyroid testing
 - Hematology (including CBC panel)
 - Tick-borne disease panel
- Influenza Testing
- COVID-19 Testing
- Micro-Biological Testing

PAULA THORPE

“All I can say is my experiences with the Stony Brook Eastern Long Island Hospital radiology department have been amazing. The staff at SBELIH is the most efficient, pleasant and courteous staff I have encountered. They are kind and caring. The radiology staff takes the time to answer all your questions about the test that you are having done.”

FAMILY MEDICINE

At Southold Family Medicine, we specialize in family, adolescent and addiction medicine. Our network of community-based physicians work closely with the experts at Stony Brook Medicine, affiliate community hospitals and other medical professionals to enhance the coordination of the medical care we provide to each and every patient in the communities we all serve. Primary care services include physical exams, vaccinations, same-day sick visits, and referrals for laboratory services, imaging and specialists.

Southold Family Medicine provides addiction medicine services for a full range of substance abuse disorders. We offer inpatient treatment for detox and rehab as necessary through our affiliation with Quannacut, part of Stony Brook Eastern Long Island Hospital in Greenport. Not only do we treat patients with substance abuse disorders, we prescribe medications for alcohol use and opiate use disorders at our Southold office, as well as at our Quannacut Outpatient Services facility in Riverhead.

ROBERT FRIEMANN

“ Last year, I had a bad case of COVID—I did not need to be hospitalized but did need to be monitored. The care that I received from Dr. Pachter was top-notch. He was caring, compassionate, and sensitive to my case. He helped me through a very rough time and kept me out of the hospital. ”
